

# WASHROOM ODOURS ONLY GET WORSE IN WARM WEATHER

When temperatures rise, so do complaints.

- Heat fuels bacterial growth and odours
- Smells intensify in poorly ventilated spaces
- Air fresheners don't eliminate the cause

- 24/7 Protection
- Guaranteed Odour Elimination
- Cleaner air and surfaces
- Proven – Independently Tested

## The AIRsteril Advantages

- Destroys odour causing bacteria & VOCs
- Continuous protection against infections and odours
- Ideal for hard to ventilate spaces
- Minimal maintenance - only annual lamp change
- Proven to eliminate key pathogens: Coronavirus, Norovirus, C. diff, E. coli, Listeria, MRSA, and Mould

## Why Your Customers Need This Now

Summer brings heat, humidity, and increased footfall - all of which make washroom odour issues worse. With AIRsteril, you can help your customers prevent complaints before they happen and show visible, lasting hygiene improvement.

Only **AIRsteril**<sup>®</sup> guarantees complete odour elimination. Backed by global laboratory certification.
